PROFESSIONAL SUMMARY

MBA (Finance & Marketing) graduate and AppliSAP-certified SAP FICO (S/4HANA) consultant-in-training, with a finance internship at Mahanadi Coalfields Limited (Coal India). Built an end-to-end SAP FICO implementation for a fictional company covering FI setup, procure-to-pay, order-to-cash, asset accounting and month-end close, with subledgers reconciled to the Balance Sheet and P&L. Applies ratio analysis, working-capital assessment, Advanced Excel and Power BI to turn financial statements into clear, traceable reporting.

SKILLS

SAP FICO (S/4HANA): General Ledger, Accounts Payable, Accounts Receivable, Asset Accounting (FI-AA), Bank Accounting; enterprise structure, FI global settings, fiscal year and posting periods, document types, number ranges, tolerance limits; chart of accounts, Schedule III financial statement version, Business Partner, SAP Credit Management.

Processes & Integration: Procure-to-Pay (MM-FI, OBYC, three-way match, GR/IR), Order-to-Cash (SD-FI, VKOA), month-end close (accruals and deferrals, FBS1/F.81), automatic payment program (F110), depreciation run (AFAB), GST tax codes, TDS.

Financial Analysis: financial statement analysis, ratio analysis (liquidity, profitability, solvency, efficiency), working capital and cash-conversion assessment, operational expenditure tracking, budgeting and variance analysis.

Tools: Advanced Excel (pivot tables, VLOOKUP/XLOOKUP, financial functions, dashboards), Power BI, Tableau, SQL, Python (basic), PowerPoint, Tally ERP.

Research: commodity and secondary market research, macroeconomic driver analysis (inflation, interest rates, exchange rates), demand–supply assessment.

Languages: English (C2 – Proficient), Hindi (Proficient), Odia (Proficient).

EDUCATION

MBA (Finance & Marketing) — Ravenshaw University, Cuttack, India | Jul 2024 – Jun 2026

- Coursework: Strategic Financial Management, Financial Management, Financial Markets & Services, Accounting for Managers, Business Law, Marketing Management.
- Sports Secretary, 2024 – 2026.

BBA (Finance) — Ravenshaw University, Cuttack, India | Jul 2021 – Jun 2024

SAP FICO (Financial Accounting & Controlling) on SAP S/4HANA — AppliSAP | Certified Sep 2026

EXPERIENCE & INTERNSHIPS

Finance Intern — Mahanadi Coalfields Limited (Coal India subsidiary) | Sambalpur, Odisha, India | May 2025 – Jul 2025

- Analysed liquidity, profitability, solvency and efficiency ratios from published statements to assess financial position.
- Calculated working capital and its components, quantifying short-term liquidity and cash lock-up.
- Tracked daily opex into recurring cost heads, creating a structured spend view for budgeting and variance review.
- Built Excel workbooks tracing every figure to a source line in the statements, keeping the analysis verifiable.

PROJECTS

SAP S/4HANA FICO End-to-End Implementation — XYZ Pvt Ltd (fictional company, IN10) | AppliSAP training | Sep 2026

- Configured IN10 from scratch (fiscal year, posting periods, tolerances), blocking closed-period and over-limit postings.
- Ran P2P (MM-FI) to a ₹6,84,400 F110 run with OBYC, three-way match and GST credit, paying only for goods received.
- Ran O2C (SD-FI) with credit check, GST invoice, 2% cash discount and customer TDS, stopping credit-limit breaches.
- Set up dual depreciation (Companies Act, IT Act), capitalised a ₹21.60 lakh machine via AuC, sold a lathe at ₹44,000 profit.
- Closed September with six accruals/deferrals (FBS1/F.81), preventing a ₹2.74 lakh profit overstatement.
- Built a 38-account COA, Schedule III FSV and Power BI dashboard where toggling each accrual recomputes statements.
- Reconciled GR/IR (₹3.40 lakh), customer balances (₹64.80 lakh) and the 11-asset register to the 30 Sep 2026 financials.
- Wrote 12 test cases per module and a configuration workbook recording the reason for each setting, ready for sign-off.

Global Gold Market: Price Drivers and Investment Role | MBA research project, Ravenshaw University | 2024 – 2026

- Analysed how inflation, real interest rates, the US dollar and uncertainty move gold, aligning the series in Excel.
- Found gold rises with inflation and uncertainty but falls as real interest rates and the US dollar strengthen.
- Concluded gold fits as a small diversifier and crisis hedge, not a core holding, since it pays no yield or cash flow.
